

HIGHWAY 71 ANNEX FLOORING

I respectfully request that the Llano County Commissioners Court authorize Building Maintenance to proceed with Coach Floors for the installation of LVP flooring in the Highway 71 Annex file storage and DMV office areas, at a total cost of \$34,448. Additional quotes have been requested; however, no responses have been received to date. Based on prior experience and the quality of workmanship previously provided, Coach Floors has consistently demonstrated the level of service and reliability needed for this project. Accordingly, I recommend approval to move forward with this flooring installation. Thank you for your consideration of this request.
